Recovery, Re-Entry, Re-open, Restart!

Hosted by Brandon A. Cruz

With the closing of school upon us, we all need some much needed rest and time for ourselves. As education professionals, we also know that we must begin planning for the "new normal." The important question is, "What will school be like when the 2020-2021 school year begins?" I think that we can all agree that it will not be "business as usual."

During this meetup, we will address some of the precautions that we can take in the absence of a vaccine. We will also review the four areas of recovery that your school districts have begun to address and will continue to address over the Summer. This information pertains to all of us who are working in schools. I hope that you can join us at one of our two sessions. The same presentation will be repeated on both days.

Should you have any questions or encounter difficulty accessing the Zoom meeting, please email Angela Carrasquillo at: acarrasquillo@swboces.org.
